Data

Elektrické parametry

Ratings per IEC/EN 60664-1

Návrhové napětí (III / 3)	400 V
Návrhové rázové napětí (III / 3)	6 kV
Jmenovitý proud	25 A

Geometrické údaje

Šířka	29,9 mm / 1.177 inch
-------	----------------------

Údaje o materiálu

barva	Světle šedá
Požární zatížení	0.04 MJ
Hmotnost	2.975 g

Obchodní údaje

Product Group	22 (TOPJOB S)
Druh balení	bag
Country of origin	DE
GTIN	4055143692298
Customs Tariff No.	85366990990

Handling Instructions

Jumpered

Locate red stripes of the staggered jumpers on the inside.

Commoning two potentials in one single jumper slot via extremely slim staggered jumpers.

2 Brückerspuren in einer Klemme

Insert staggered jumper and push down until it hits backstop.

Jumpered

Locate red stripes of the staggered jumpers on the inside.

Insert staggered jumper and push down until it hits backstop.

Jumpered

Removing a staggered jumper:

Insert the operating tool between the staggered jumpers, then lift up the jumper.

Jumpered

Staggered jumper (seven contacts)

Marking a staggered jumper using a felt-tip pen.

Staggering jumpers in a single jumper slot.

Individual jumper contacts can be broken off by bending them. The remaining piece of insulation will meet requirements for clearances and creepage distances.

When creating custom staggered jumpers (e. g., for bridging over a terminal block with a different potential), make sure that only one contact lug is in contact with the terminal block.

The contact lugs of the customized staggered jumpers contact the terminal blocks via the gaps created in the second jumper.

Insert and press the ready-made jumper assembly into the jumper slot until it hits backstop.

Produktová rodina

TOPJOB® S

TOPJOB® S: In various industrial applications and modern building installations, WAGO's wide and versatile range of rail-mount terminal blocks provides more than just reliable electrical connections.
