

BC 40 Basic Clip 35040

CE
6/2022

Areas of application:

The Basic Clip BC can be fastened on each surface – by a screw on wood and metal or simply by the push of a thumb with the Dowel Fastening Nail DSN, resp. with screw and rawl plug on concrete/aerated concrete or on brick walls.

Installation Guide:

With DSN:

- Drill a 6 mm Ø hole,
- insert DSN with BC in the hole,
- push the pipe into the clamp.

With screw:

- fasten the BC with a screw, suitable for the surface,
- push the pipe into the clamp.

Product details:

Colour	light grey
Content pack/box	50 / 900
Insulation pipe Ø	40

Technical data:

Material	PP, UV stabilised Temperature range: -10 °C up to +85 °C silicon-free Material tested according OVR R14 (LSFOH)
----------	---

Weight per piece 5,80 g

GTIN (EAN) 
9 008439 450404

Without the need for further screws, several Basic Clips BC of different sizes can be connected by simply inserting or latching. Mounting time and costs are saved.
