

The image shows the cover of a WAGO product manual for part number 210-414. The cover has an orange header with the WAGO logo and the tagline 'INNOVATIVE CONNECTIONS'. Below the header, there is a technical diagram of a circuit with a switch and a meter, and a detailed illustration of the terminal block being used to connect wires. The illustration shows the correct way to insert a wire into the terminal block, with a 'TEST' label and a 'I' label. Below the illustration, there are three small diagrams showing different ways to insert a wire: the correct way, a way that is crossed out with a red 'X', and a way that is crossed out with a red exclamation mark. The WAGO logo and part number 210-414 are printed at the bottom of the cover. The cover also features 'RoHS Compliant' and 'BOMcheck.net' logos.
