

### Hlavní parametry

Řada	Masterpact
Typ produktu nebo součásti	Aplikace
Application program desc	Individual harmonics analysis
Kompatibilní řada	Masterpact MTZ1 jistič Masterpact MTZ2 jistič Masterpact MTZ3 jistič
Popis služby	Individual harmonics of voltages and currents are available up to rank 40 Calculation according to the measurements methods (IEC61000-4-30) Calculation of individual harmonics performed every 200 ms Micrologic X provides the aggregated values calculated on a time period of 3 s
Service benefits	Individual harmonics at a glance on your smartphone Easy share with a remote expert thanks to the share function on the smartphone Remote individual harmonics analysis thanks to EcoStruxure Power platform
Správa energie	Measurement individual harmonics možnost
Přesnost měření	+/- 4 % of the measuring range current and voltage

### Doplňěk

Název softwaru	EcoStruxure Power Device
