Niloé™

Simple two way Switch - 10 AX - IP 44 - White

## LEGRAND'S ENVIRONMENTAL COMMITMENTS

- Incorporate environmental management into our industrial sites**

Of all Legrand sites worldwide, over 85% are ISO 14001-certified [sites belonging to the Group for more than five years].

- Offer our customers environmentally friendly solutions**

Develop innovative solutions to help our customers design more energy efficient, better managed and more environmentally friendly installations.

- Involve the environment in product design and provide informations in compliance with ISO 14025**

Reduce the environmental impact of products over their whole life cycle.

Provide our customers with all relevant information [composition, consumption, end of life, etc.].

## REFERENCE PRODUCT

<b>Function</b>	Allow the making and breaking, in air, of a 250 V low voltage circuit, according to the standards NFC-15100 and IEC 60669-1, with a non-continuous operation (30% of time) during 20 years (household or similar purposes) at 30% of rated load, with rated load not exceeding 10 A. Product ensuring weatherproof protection (IP44).	
<b>Reference Product</b>		
	Réf. 6 647 21 Simple two way switch - 10 AX - IP 44 - White	Réf. 6 650 01 Plate

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the company.

## PRODUCTS CONCERNED

The environmental data is representative of the following products:

Catalogue Number (mechanism)	Catalogue Number (plate)
• 6 647 21	• 6 650 01

Simple two way Switch - 10 AX - IP 44 - White

## ■ CONSTITUENT MATERIALS

This Reference Product contains no substances prohibited by the regulations applicable at the time of its introduction to the market. It respects the restrictions on use of hazardous substances as defined in the RoHS directive 2011/65/EU.

<b>Total weight of Reference Product</b>		108 g (with unit packaging)			
Plastics as % of weight		Metals as % of weight		Packaging as % of weight	
PC	22.4 %	Copper alloys	1.6 %	Wood	28.8 %
ABS	17.6 %	Other metal	1.2 %	Paper	15.9 %
SBS	8,2 %	Steel	0.4 %	PET	2.7 %
		Silver alloys	0.1 %	PP	0.7 %
				PE	0.4 %
PS	< 0.1 %				
<b>Total plastics</b>	<b>48.2 %</b>	<b>Total metals</b>	<b>3.3 %</b>	<b>Total others (packaging)</b>	<b>48.5 %</b>

Estimated recycled material content: 10 % by mass.

## ■ MANUFACTURE

The Reference Product comes from sites that, in their majority, have received ISO14001 certification.

## ■ DISTRIBUTION

Products are distributed from logistics centres located with a view to optimize transport efficiency.

The Reference Product is therefore transported over an average distance of 1405 km by road from our warehouse to the local point of distribution into the market in Europe.

Packaging is compliant with European directive 2004/12/EU concerning packaging and packaging waste. At their end of life, its recyclability rate is 89 % (in % of packaging weight).

## ■ INSTALLATION

For the installation of the product, only standard tools are needed.

## ■ USE

Under normal conditions of use, this product requires no servicing, no maintenance or additional products.

Simple two way Switch - 10 AX - IP 44 - White

## END OF LIFE

The product end-of-life factors are taken into account during the design phase. Dismantling and sorting of components or materials is made as easy as possible with a view to recycling or failing that, another form of reuse.

• **Recyclability rate:**

Calculated using the method described in technical report IEC/TR 62635, the recyclability rate of the product is estimated at 85 %. This value is based on data collected from a technological channel using industrial procedures. It does not pre-validate the effective use of this channel for end-of-life electrical and electronic products.

Separated into:

- plastic materials (excluding packaging) : 39 %
- metal materials (excluding packaging) : 3 %
- packaging (all types of materials) : 43 %

## ENVIRONMENTAL IMPACTS

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use and end-of-life. It is representative from products marketed and used in Europe.

For each phase, the following modelling elements were taken in account:

<b>Manufacture</b>	Materials and components of the product, all transport for the manufacturing, the packaging and the waste generated by the manufacturing.
<b>Distribution</b>	Transport between the last Group distribution centre and an average delivery point in the sales area.
<b>Installation</b>	The end of life of the packaging.
<b>Use</b>	<ul style="list-style-type: none"> <li>• Product category: passive product.</li> <li>• Use scenario: non-continuous operation for 20 years at 30% of rated load, during 30% of the time. This modelling duration does not constitute a minimum durability requirement.</li> <li>• Energy model: Europe - 2002.</li> </ul>
<b>End of life</b>	The default end of life scenario maximizing the impacts.
<b>Software and database used</b>	EIME V5 and its database «CODDE-2015-04»
