

B1 ceiling junction box

Slab ceiling box for retrofitting 100 mm

- for retrofitting on the building site
- installation height 100 mm, with metal nut M5 for light hook (min. hook length 95 mm + plaster thickness)

Order number:	1247-01
EAN:	4013456330702
Depth	100 mm
Number of parts	2
required drilling hole	65 mm
Dispatch	100

The new B1 ceiling boxes simplify installation on the ceiling formwork. The innovative conduit entries allow the easy laying of the conduits in multiple ceiling boxes arranged in a row without the need for cutting during laying work. The higher conduit entries make additional cut-outs of the reinforcement bars unnecessary, and speeds up the fitting of empty conduits on the ceiling.

- Suitable for all types of formwork
- Flat front part makes possible the trouble-free fitting of the reinforcement bars on the ceiling formwork
- Innovative conduit entries for fast fitting on the building site
- Plenty of installation space
- Fitting of a light hook acc. to DIN EN 60670
- The tried-and-tested KAISER colour system ensures fast testing of the installation
