

Electronics box

Connecting clip for stacking boxes 9062-02/-77

- for horizontal combination of two-gang junction boxes 9062-02 or electronics boxes 9062-94

Order number:	9062-50
EAN:	4013456241107
Packaging inner	10

Cavity wall electronics box for switching units, electronic components, cables and terminals in cavity walls. The box can be subdivided and combined, so it offers a wide range of usage options.

- For different kinds of voltages by using the associated separator wall
- Integrating radio or EIB actuators
- With cover that can be wallpapered and filled
- Can be combined with each other and with one-gang boxes and one-gang junction boxes
