

B1 Prefix® wall outlet adapter

B1 Prefix® wall outlet adapter

- Facilitates attachment to the reinforcement
- Two slots for connection of B1 Prefix® system wing brackets
- Can be used for the following articles:
 - End and transition grommet / Article No. 1204-29
 - Wall and ceiling elbow 30°/ Art. No. 1202-29

Order number:	1211-32
EAN:	4013456551404
For concrete coverings of	20 - 60 mm
Packaging inner/dispatch	25/100

Using the B1 Prefix® wall outlet adapter, end and transition grommets, and wall and ceiling 30°-elbows, can be easily and quickly fixed to the reinforcement for pressing against the (not yet placed) front formwork. They have two strong attachment slots, on opposite sides, for clicking the new Prefix® system wing brackets into place.

- Fast, easy installation on rebar without support element before front formwork placed against it
- For installation in exposed concrete, pressed against the front formwork
